Saturday, July 4, 2026 · As of Jul 3, 2026 17:00 ET · Sentiment: Bearish

Global energy markets closed the week on a bearish note for crude, as a near-term supply glut emerged following increased shipments through the Strait of Hormuz and easing geopolitical tensions. Equity markets saw mixed performance, with the S&P 500 largely unchanged, while the dollar strengthened against the Euro on weaker-than-expected US labor data.
